Description

Link: <https://falaqfood.com/>

Reproducing Steps:

- Add any item to cart
- Open cart.
- Proceed to checkout page.

Current Result: Shipment option now by default selected as 'Inside Dhaka' & not a mandatory field.

Expected Result: It shouldn't be selected any of the option by default and should be dynamic.

Current Impact: Most of the customer completing the order by default 'Inside Dhaka' selection. Also, most of the customers ignore the field as it is not mandatory.

<> QA Suggestions:

1. Please remove the shipment option from the cart and keep it only in the checkout page.

2. Make the shipment selection dynamic and auto adjust delivery charge based on the location. [Recommended]

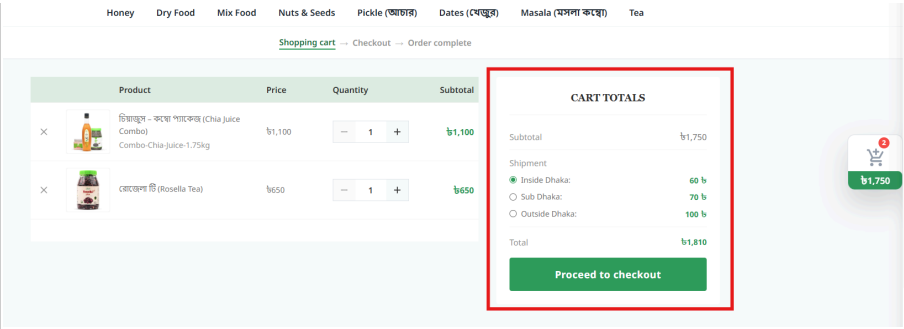

3. If that's not possible than make the shipment options unchecked by default and make it a mandatory field. [Not Recommended]

Screenshot Explanation:

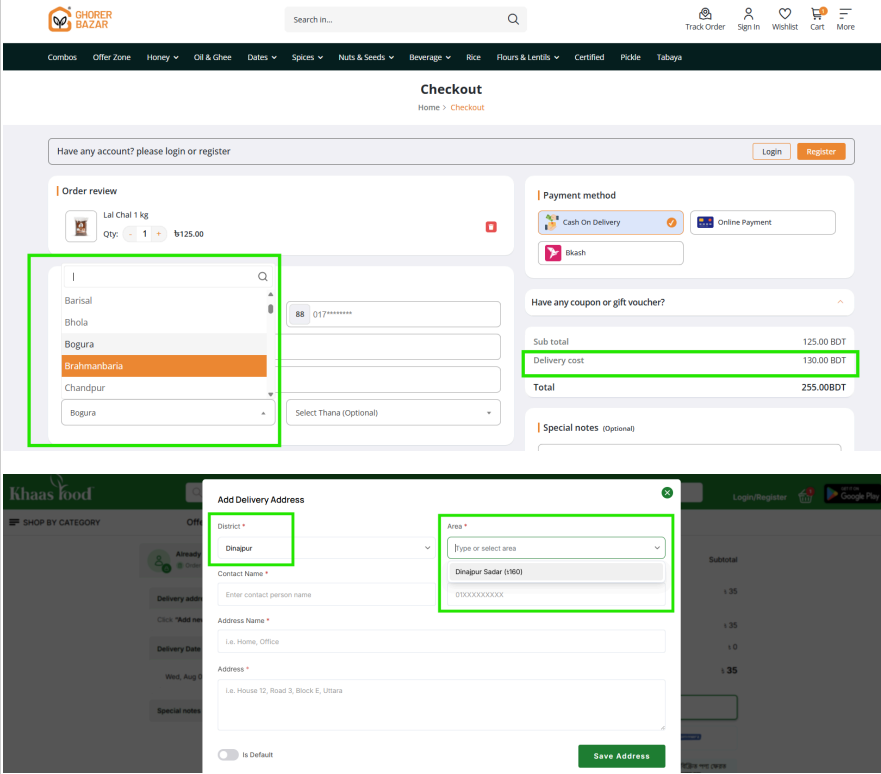

1. No need of shipment option in the cart. Or make it unchecked by default and make it mandatory field.

1. In checkout page make it unchecked by default and make it mandatory field.

1. Can make it dynamic like other sites. So it will auto adjust the delivery charge. For example - Ghorer Bazar & Khaas Food.
